The main purpose of the conference is to enable students, postgraduates, young scientists and post-graduates from universities, universities, colleges and institutes from the country and abroad to present their papers and reports on the scientific fields in which they work, the problems of management and quality in the direction of the university, as well as to establish professional contacts with colleagues from other universities working on similar issues and for the popularization of their scientific production.

THEMATIC AREAS:

- ❖ Technical sciences
- ❖ Veterinary Medicine
- ❖ Agricultural Sciences
- ❖ Social, Health, Business and Law (Marketing & Management)
- ❖ Natural Sciences, Mathematics and Informatics
- ❖ Medicine
- ❖ Pedagogical Sciences
- ❖ Quality of education

For participating are appropriate scientific and scientific reports and communications related to the above-mentioned scientific fields, which are the results of studies of students, PhD students, young scientists and postdoctoral students (independently or with their supervisors), but the young scientist is the first author in the report and it presents it). All admitted reports will be reviewed before they are admitted to the conference.

In each of the thematic areas, the best presentations will be awarded in three categories: students, young scientists, and postdoctoral students. All participants will receive a **Certificate of Participation in the Conference**.

The reports will be published in the Proceeding of Scientific Papers "Management and Quality" (2603-4395 print, 2603-4409 CD-ROM) included in the National Reference List of Contemporary Bulgarian Scientific Papers with Scientific Review, in the journal of Trakia University "Trakia Journal of Sciences" (1312-1723 - ISSN TJS print, 1313-3551 - ISSN TJS online) and other specialized scientific editions of Trakia University.
